

A Reflective Data Analysis Protocol

IDENTIFY

What Happened

- What were the students demonstrating?
- What were the students' successes and challenges?

REFLECT

Why It Happened

- How did the format impact student demonstration of learning?
- How did previous decisions in lesson design and delivery impact student demonstration of learning?

IDENTIFY

What Happens Next

- Regarding successes, how can previous decisions in lesson design and delivery be replicated to ensure continued student learning?
- Regarding challenges, how can previous decisions in lesson design and delivery be revised to ensure student learning?
